Medium	<ul style="list-style-type: none"> EZ Out Shampoo, Aloe Premium Shampoo or Coconut Clean Shampoo Followed by EZ DeMatt Conditioner (Dilutes 12:1) 		
Mild	<ul style="list-style-type: none"> EZ Out Shampoo, Aloe Premium Shampoo or Coconut Clean Shampoo Followed by EZ DeMatt Conditioner (Dilutes 12:1) 		

How to Use the Products:	
Step 1	Apply Quicker Slicker, or diluted EZ DeMatt in a spray bottle diluted 12:1 and spray on dirty coat.
Step 2	Gently brush through coat with the appropriate slicker brush.
Step 3	In a mixing bottle dilute the shampoo according to the instructions on the bottle. Gently massage diluted shampoo into dry coat, gradually adding more water to help evenly distribute the shampoo through the coat. Do not forget to massage into pads of feet, and between toes. Be careful not to get product in the eyes, ears or mouth.
Step 4	For optimal results leave shampoo and EZ DeMatt spray on coat for at least 10 minutes, while massaging in.
Step 5	Rinse thoroughly and repeat these steps using conditioner. Only dilute the product directly before using. These products are biodegradable after water is added.
Step 6	Once the bathing process is finished, use a super absorbent towel to dry the pet. It is important to dry the pet as well as possible, including between the toes, under arms, etc.

Important information & tips:

- In severe cases, it is recommended to bathe the pet once a week for 6 weeks, if progress is seen you can cut down to twice a month, and eventually every 2 months.
- It is important to ensure that you are not irritating the skin when you are brushing and combing. If you notice the skin is becoming pink, you should stop.
- Even though your shampoo, conditioner or optimizer may be considered tearless, you should avoid getting any product in your pet's eyes.
